### Course leader's biographical note:

*Irena Ograjensek is Full Professor at the School of Economics and Business of the University of Ljubljana. She lectures on research methodology, economic and business statistics, and key principles of new economy (including alternative welfare indicators). Her research work at the level of an organisation is dedicated to measurement of customer and employee loyalty, customer and employee satisfaction, employer attitudes towards older workers, service quality, as well as motivational and ecological capital of an organisation. At the level of industry/economy as a whole and region/country/group of countries she applies qualitative and survey methodology when researching issues related to competitiveness, economic growth, population ageing, urban regeneration, and quality of life.*
